

SOULFINDER

Biography :

Hailing from Ireland's capital, Dublin, Stephen Hogg (Soulfinder) musical passion extends way back to his early years. Since he was 13 he has been involved with club nights and hosted his own radio shows on many of Dublin's top stations, recently Freq 93.2.

With now over 13 years experience he has naturally progressed into all forms of house music, mainly Deep Melodic House. He has had regular bookings through out Ireland and has played in clubs like, Tripod, Club Mono, Tivoli Theatre, The Cavern, and Radio City to name but a few.

When he was 17 he was involved in production but it wasn't until he was 24 until he learned enough to call himself a producer.

His music kind of relates to his character full of emotion with a warm friendly vibe that is pleasant to the ears, as he tries to be unique with his sound.

Nowadays you can find his releases on labels such as Outside The Box Music, Toes in the Sand, Monadmusic, Deepology and Jetlag Digital..

Some of these releases have been getting solid support from dj's across the USA and Europe.

Plus support on his releases have come from Hernan Cattaneo, Danny Howells, Miss Nine, Darin Epsilon,

etc and has had chart toppings from the likes of Nick Warren, Eelke Kleijn, MentalX to name just a few.

His Trauma EP also had review in Gomagazine.nl where his music was compared to Sasha and Digweed's Northern Exposure albums, plus it reached No 4 in the Progressive House Top 100 Dance Chart.

He was also voted as the best Newcomer for 2008 on Shake Electronic music Radio Station in Switzerland.

After that he was brought to Zurich Switzerland to play at the world famous Streetparade in the Lobby Bar

and the Club Labyrinth. 2009 has been a great year for Soulfinder, starting off in January he was invited by

Ireland's tv Station City Channel to do an interview with Skooter Girl with Monadmusic. Also for 2009

he has played numerous of gigs and has had released some really cool tracks that have really been noticed

and highly charted on Progressive House.com and the best still has to come from this guy as he still

has the release of his Album in October to come plus a load more releases too.

It has taken him quite some time to open the doors to success, but these things don't happen over night and with all his experience

now both as a dj and a music producer he aims to slowly but surely fulfill his goals and dreams.

Rest assured this will not be the last time you will be reading about this young talented Dj/Producer/Remixer.
